

The Residential Construction Safety Group (ResCon) is an organized team of leaders comprised of safety professionals, government employees and other service providers. Our mission is to increase awareness and improve the safety culture for business owners and safety professionals in the residential construction market through the provision of safety forums, events and support teams in which they can participate. Additionally, the ResCon Safety Group provides regulatory updates, leadership commitment and an atmosphere of sharing and education.

Come and join our ResCon Safety Group during this special training session where we'll learn effective teaching methods to better communicate with our Hispanic monolingual workers in the residential construction industry. This training will also help you build a better rapport and trust with your work crew(s) which will in turn help increase safety and health at your workplace.

You will learn through demonstrations and examples of these objectives:

- 1) Learn some of the different types of barriers which affect the Hispanic workforce safety and health.
- 2) Learn the tools and methods to better explain the job task assignments and safety procedures for better productivity and safer results.
